

# Linear Technologies **Cloud Services**

LINEAR TECHNOLOGIES NEW YORK METROPOLITAN AREA DATA CENTERS COMPRISE ONE OF THE MOST POWERFUL NETWORK-DENSE, LOW LATENCY AND RELIABLE SERVICES ON THE EAST COAST.

Our Cloud Services allow you to connect your office seamlessly to our scalable, enterprise-grade facility located in Secaucus, New Jersey. Our unique configuration gives you connectivity to the data center from everywhere in the world. Whether you need a global gateway to do business, or a compliant infrastructure to build a hybrid cloud environment, we have you covered.

## ONE DATA CENTER PROVIDER. **EVERYTHING YOU NEED**

### FACILITIES

**Close to Home:** Access your servers any time you need, at our location in New York, or take a trip across the river to Secaucus, New Jersey.

**Room to Grow:** Whether you need a single rack or a private suite, we can rapidly meet nearly any footprint requirement, and cost-effectively grow with your evolving needs.

### CONNECTIVITY

**Network Connectivity:** Our network-neutral data centers allow you to create a more efficient IT architecture with access to your choice of providers within the facilities, including SDNs, global carriers, subsea networks, metro providers and more.

**Cloud Access:** Enjoy native access to your local network to improve performance and security while saving on data transfer rates.

## SCALABILITY IN **EDGE MARKETS**

If you need colocation with connectivity options to clouds and networks, but also require the flexibility to expand as your compute needs evolve, we've got you covered. We are constantly investing in expansions and developments to ensure our customers can continue to grow with us.

Calculations based on speed tests conducted by Linear Technologies, Inc of direct interconnection product vs. the public Internet and may not accurately reflect your performance improvements. These tests have not been independently verified by any third-party and should not be deemed to be an assurance or guarantee as to expected performance.

## BENEFITS

### ENTERPRISE

- **Guaranteed throughput** – High bandwidth network connections offer guaranteed throughput and lower latency compared to public Internet connections
- **Increased security** – Direct connections offer private network isolation and are more secure than connecting through the public Internet
- **Improved control** - Directly manage connections in near real time through the online self-service portal or APIs
- **Ecosystem access** - Single port allows users to establish multiple virtual interfaces with our growing community of cloud, network and other service providers.

### NETWORK

- **Expand service offerings** – Take advantage of Linear’s direct connectivity partnerships to leading service providers
- **Grow revenue** - Take advantage of the hybrid cloud market and meet the demand for direct connectivity solutions
- **Simplify onboarding** – 24/7 service technicians allow you to easily configure and customize connectivity
- **Reduce costs** – Prevent any data loss and data availability reduce your risk and cost.

### CLOUD

- **Expand your customer base** - Increase addressable market and attract new business by offering secure, dedicated connectivity to enterprise customers
- **Enterprise access** - Reach remote enterprises via the Site to Site VPN service and secure IPsec over internet tunneling.
- **Improve connectivity** – Improve network performance with guaranteed throughput and lower latency compared to public Internet connections
- **Simplify your business** – Simplify onboarding and reach customers through a single network interface.
